All applications for detailed site plan review shall demonstrate compliance with the following criteria:

G-4 – Suburban (Walkable): This sector applies to modern singleuse residential subdivisions and office parks, large schools and parks, and suburban shopping centers. This sector is generally stable but would benefit from strategic suburban retrofits to supplement the limited housing stock and add missing civic and commercial uses.

The purpose of the C-3 (Community Commercial) district is to provide commercial uses intended to provide goods or render services which are used in support of the community's trade and service establishments and serving multi-neighborhoods. Permits intensities designed to be compatible with each other and to provide for a wide range of types of commercial activity, including light automobile related uses.
